MAKE AND BAG ICE

Make & Bag your own and improve profits by up to 100%

If you're selling ice and currently rely upon delivered ice, it is worthwhile to consider making a change! With the right equipment you can have a quick and efficient bagging process that eliminates the middle man, allows you to enjoy more profit and ensures you won't run out of ice.

MAKE-BAG-SELL PACKAGE:

- Ice Machine and Bin
- Ice Merchandiser
- Aluminum Ice Bagger
- Ice Bags
- Hand Bagging Supplies
- Plastic or Stainless Steel Scoop
- Stainless Steel Scoop Holder

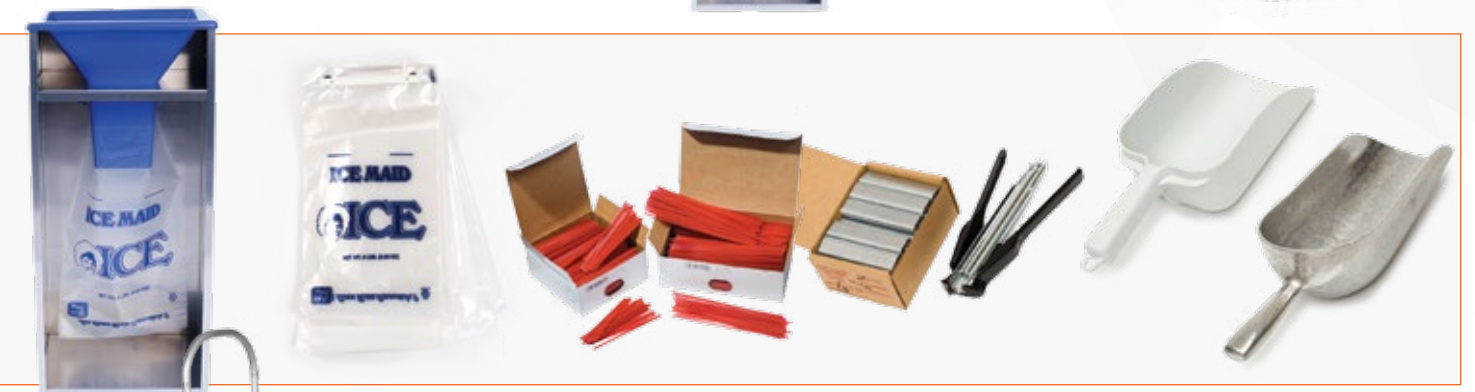

Call today for your custom package price!

BAGGING PACKAGE:

- Aluminum Ice Bagger
- Ice Bags
- Hand Bagging Supplies
- Plastic or Stainless Steel Scoop

Call today for your custom package price!

CONVENIENCE PACKAGE:

- Magline Hand Truck
- Most Popular Decals

OPTIONAL EXTRAS:

- Water Filters
- Ice Machine Cleaner
- Ice Machine Sanitizer

We'll help you craft the right mix of equipment and supplies to make and bag ice profitably and within the requirements of your facility.

ICE BAGS & SCOOPS

Custom Design & Name Slug Bags

Make the bags your own!

Get noticed and meet FDA and health department regulations for ice bag labeling with our custom or name slug ice bags. Provide a design or let us help – we'll make it easy! Personalized or custom bags are available in any size. We have quantities from 5,000 and up.

Most State Health departments and the FDA require labeling of any bagged ice sold to the public. The FDA specifies that “packaged ice labels must meet FDA food labeling requirements. The labels must list the name and place of business of the manufacturer, packer, or distributor of the ice.” Ice Maid’s custom or name slug ice bags meet the labeling requirement.

Wire Wicketed Ice Bags

Available in clear bags or Ice Maid Stock Design. Perfect for manual or automatic bagging machines.

Clear & Ice Maid Design Available

See page 6 for in stock availability.

Drawstring Closure Bags

Ice Pro DB1000
Automatic Bagging & Dispensing System

- Safest, easiest-to-use, most reliable system
- User friendly control panel minimizes training time
- Blower automatically opens bags for hands-free filling
- Independent agitation system prevents ice from bridging
- Lockable, clear window with interlock switches for easy inspection of ice level
- Dual-position dispense chute – fill bags or carts with the flip of a lever
- Accommodates most cube ice machines
- Adjustable bag stand accepts up to 20 lb bags – lifts off to fill coolers, containers and carts

Ice Pro DB650
Automatic Bagging & Dispensing System

- See up to \$10,000 a year higher profits than buying packaged ice!
Requires minimal staff time and effort:
- 6-8 bags a minute
 - 85% faster than manually bagging
 - Easy – dispenses at the touch of a button
 - Safe – no bending or scooping ice
 - Sanitary – hands never touch the ice

Don't run out of ice waiting for a delivery!

Which model Ice Pro is right for you?

	Ice Pro DB650	Ice Pro DB1000
Space Required	34" wall space	52" wall space
Ceiling Height	Fits under 8 ft ceiling with most ice machines	Fits under 8-9 ft ceiling depending on ice machine
Weekly production bagging once a day	425 bags	700 bags

Let Your Ice Machine Do the Work of Two

Ice Manager

- Utilize the full production capacity of a single ice machine by filling two dispense points
- Automatically deliver ice to where it's needed most – fill your fountain during the day, then fill a bin at night
- Save on equipment costs, operating costs and space

Scotsman® Ice Systems

Ice Machines

Scotsman Ice Systems promises cost saving efficiency, self monitoring, easy access servicing and optimized cleaning. The Prodigy™ Eclipse® ice machine features state of the art technology designed to help operators in all segments increase profits. Combining the best of two brands, the ice machine offers the self-monitoring and reporting systems from the Prodigy™ line and the heat/noise reduction and space conservation of the Eclipse® line.

Storage Bins

New, sleek, contemporary styling. A perfect match to Prodigy™ cube ice machines and other Scotsman ice machines.

Features a convenient, built-in scoop holder and offers an easily removable baffle, no tools required for cleaning.

Available in stainless steel or durable rotocast plastic.

SSM-A Water Filters

Extends the life of your Scotsman machine and provides cleaner, more consistent ice - Now with AquaArmor with AgION®, a silver-based anti-microbial compound that reduces the growth of bacteria, microorganisms, algae, mold, and slime on ice machine surfaces, preventing premature clogging, a./pa. - Ultrafine half-micron filtration, combined with food-grade polyphosphate, assures that chlorine, off-tastes, odors and particles stay out of your ice.

Filtration can reduce unscheduled water-related maintenance calls by as much as 40%. Scotsman filters are easy to install and maintain.

Ice Machine Cleaner

9405463

Metal-Safe Cleaner
For flake, chiplet, nugget
or SM machines
000000084

Ice Machine Sanitizer

Ice-O-Matic®

Ice. Pure and Simple

Ice Machines

ICE Series™ Modular Cube Ice Makers are built simply for reliable performance and carefree operation. Newly redesigned to be even easier to use, they are perfect for any application. As a result of the improvements, all of the ICE Series™ cubers meet or exceed CEC and/or Energy Star criteria.

Available in 22", 30", and 48" wide designs, producing up to 1,856 pounds per day.

Storage Bins

Ice-O-Matic offers unique bin solutions for virtually any combination of cube or flake icemaker.

- Slope front or upright bins
- Sizes from 242 lbs. to 1,807 lbs. of application bin storage
- High and low profile bins – 28"-66"
- Available in widths from 22"-60"
- Stainless steel exterior offers corrosion protection and durability
- Safe-hold hinge door stays open while scooping ice
- Adjustable legs
- NSF approved

Water filtration systems – IFQ1, IFQ2

Ice-O-Matic's water filtration systems provide carefree operation with protection against unpleasant tastes, odors, sediment and scale formation. Ice-O-Matic ice maker water filter systems are available to match the production capacity of any Ice-O-Matic ice maker and easily mount to the wall. Designed for the practical needs of your operation, these ice maker water filters take up a minimal amount of space and are equipped with quick-connect fittings for fast, easy replacement.

Koolaire Ice Machines & Bins:

- Affordable and efficient
- Reliable with an excellent warranty
- Simple to operate
- Features common parts
- Models range in production from 250 lbs of ice per day to 1,350 lbs
- Air-cooled or water-cooled models

Ice Machines

Manitowoc offers one of the largest portfolios of ice machines in the foodservice industry. Choose from flaker, nugget, cuber or gourmet ice machines producing from 100 lbs to 3,000 lbs per day. Bins are constructed of a durable and corrosion-resistant stainless steel composite resin base, rugged polyethylene bin liner, stay-open bin door and internal scoop holder.

Storage Bins

Manitowoc's B-style ice storage bins for S-Series ice machines are constructed of a durable and corrosion-resistant stainless steel composite resin base, rugged polyethylene bin liner, stay-open bin door and internal scoop holder.

Manitowoc Ice Bagger

Easy to use ice bagging attachment ideal for convenience store, supermarket, recreation and campground bagged ice production.

AuCS® [Automatic Cleaning System]

The patented AuCS® cleans your ice machine water distribution system automatically in just 25 minutes.

AuCS® cuts maintenance costs, maximizes ice production and enhances the reliability and life of your Manitowoc ice machine. The AuCS® is lightweight, compact and can be mounted on the ice machine or a nearby wall.

Ice Machines

The Hoshizaki CycleSaver™ design has fewer moving parts and fewer cycles, which means dependability, longer machine life and energy savings for the operator. The Hoshizaki KM Cuber's stainless steel evaporator offers years of trouble-free icemaking because it is not affected by caustic water conditions. There is no plating to peel or flake, and no plastic to crack. The KM Cubers will produce up to 2,400 lbs of ice per 24 hours. Stackable for up to 4,800 lbs per 24 hours of ice production in the same floor space.

Storage bins

Hoshizaki ice storage bins are available with either stainless steel or vinyl clad exterior for easy cleaning and long lasting attractive appearance. Sturdy construction allows for side-by-side or stacked installation, and non-corrosive bin liners provide safe, sanitary storage of ice. Foamed-in-place polyurethane insulation in all bin walls and bottom, provides dependable ice storage.

HCD-500B, 30" With Ice Bagging System - Stainless Steel Exterior

Safely store up to 647 lbs of ice with this HCD-500B 30" ice storage bin & bagger! It boasts foamed-in-place polyurethane insulation in all of the bin walls and the bottom of the unit to provide you with maximum ice preservation. The HCD-500B features a durable cabinet with a seamless, easy to clean, polyethylene bin liner. This model comes Standard with Square Tube Legs and a Front ice shovel door. The unit is ISO 90001:14001, ETL Sanitation Listed and includes a Two Years: Parts & Labor on entire machine.

Water Filtration Systems

- Keep ice makers functioning at full capacity.
- Reduce up to 99.9% of disinfectant chlorine from incoming water supply, eliminating off tastes and odors.
- HF-H Filter will filter out dirt and rust particles as small as ½ micron producing crystal clear ice (99%+ reduction).
- Decrease machine maintenance by reducing lime scale build-up.

ICE LINK

ICE MAID® | Ice Manager

Ice Link S350

Delivery of ice from one source for up to four locations.

Every activity of an employee has associated cost. Save your company \$10,000 per year and stop your employees from lugging bucket after bucket of ice to dispensers with Ice Link.

Ice Link is a high speed automatic sanitary ice delivery system that leads to labor efficiency as well as employee safety and cleanliness. Ice Link automatically moves any type of ice at a speed of 30 feet per second and up to 4 stories vertical and 350 feet horizontal.

Ice Link automatically delivers ice to bins or dispensers that need it. Using the same pneumatic-tube principle that moves canisters through a drive-through bank-teller station or at a large office facility, Ice Link delivers ice wherever it's needed. By putting optical monitors in the beverage dispensers or ice bins it feeds, the system constantly observes ice levels and adds ice as needed in quantities of about 32 oz.

- Reduces the need for additional ice machines. Maximizes the use of current ice machine investment.
- Reduces labor burden, insurance costs and ice loss due to spills and bridging.
- Safer, reduces liability injuries from slip & falls from carrying ice.
- Automated hands-free cleaning system. Controls can be set to go into cleaning cycle on demand.
- Sanitary transportation of ice, no more dirty buckets, no dirty hands coming in contact with ice.
- Stores up to 350 lbs. of Ice in the Base unit in addition to ice storage capacity at each dispense point.
- Conveys up to 900 lbs. of ice in per hour
- Dispenses ice up to 350 ft. from the base unit.
- Ice is delivered automatically on demand. Ice is always available for the cold plate.
- Maximize storage capacity efficiency.

WATER FILTRATION

ICE MAID® | Filters & Systems

Everpure InsurIce Water Filters

InsurIce Water Filters for Ice Makers

For dramatic reduction of the most common water-related ice machine problems: scale build-up from dirt and dissolved minerals in the water.

Benefits:

- Reduces common off-tastes and odors such as chlorine
- Filters out dirt as small as one-half micron
- Filters out cysts and asbestos fibers
- Reduces scale buildup
- Reduces machine maintenance
- Reduces down time
- Saves energy
- Keeps ice maker functioning at full capacity

DISPENSERS

ICE MAID® | Ice & Beverage Dispensers

Ice Dispensers

Manitowoc SerVend Countertop Ice Dispensers

Manitowoc is the name for ice around the world. A no-hassle, one-piece structural base, strengthened drive train, and modular design all contribute to a more durable, more dependable ice dispenser.

SerVend features:

- Patented ice door mechanism reduces ice spillage
- Patent paddle wheel technology allows all ice to be dispensed
- Push lever or push button ice dispense mechanisms available
- Dispenses any size cube ice up to one inch square and some compacted flake forms
- Flake ice is not recommended
- Stainless steel exterior cabinet with merchandiser and "ice" sign and push lever ice dispense are standard

Ice & Beverage Dispensers

FOLLETT
Innovative solutions, inspired by ice

- High capacity, low-profile
- Under counter ice storage
- Beverage rail from 8 to 24 valves
- QuickCarb™ technology so changing from carbonated to non-carbonated beverages is as easy as the flip of a lever
- Manually load ice from the front or rear at an easy waist height
- Choice of left or ride side dispensing cute doubles throughput

Manitowoc

Manitowoc SerVend Ice + Beverage Dispensers

Whether you need a dependable, basic ice and beverage dispenser like the SV-200, a 20-valve focal point like the MDH-402 or the millions of drink flavor combinations and selectable ice available with the Flav'R Pic 250, Manitowoc has your ice and beverage dispenser solution!

MERCHANDISERS : SOLID DOOR UPRIGHT

ICE MAID® | Mfg. Model # R-US

ICE MAID® solid door upright ice merchandisers are reliable and sturdy for your outdoor ice needs. All 1/2 HP condensing units now use compressors with more BTUs for faster pull down and better temperature maintenance. All electrical components are UL Listed. All 1/3 HP and 1/2 HP auto defrost units have two evaporator fan assemblies. Doors are 28" x 47" and textured aluminum.

These specifications are subject to change without notice and without incurring responsibility for previously sold merchandisers and components. Storage may vary due to size of bags, type of ice and method of stacking ice bags.

WALK-INS : COOLERS & FREEZERS

ICE MAID® | Walk-Ins

Polar King

Polar King Seamless Walk-in Coolers & Freezers

Polar King outdoor walk-in coolers and walk-in freezers are designed specifically for outdoor applications requiring refrigerated storage. Available for through the wall applications or freestanding, each Polar King unit is built with a patented fiberglass construction. Walk-in refrigerators are made of fiberglass and designed specifically for outdoor use. All outdoor cooler units are delivered pre-wired, pre-assembled, and ready to operate. No on-site assembly is required on any walk-in or trailer unit.

Kool Star®

Kool Star® High Density Rail Walk-ins

Featuring the latest in high density rail construction, Master-Bilt's Kool Star walk-ins offer maximum flexibility and convenience for a wide variety of applications.

Master-Bilt

Master-Bilt

From a minimum 36 sq. ft. size to the more elaborate 10,000 sq. ft. warehouses, Master-Bilt walk-in coolers, freezers and combos provide the right amount of temperature-controlled space. Rapid delivery options include Quick Ship or 10-Bilt™ models. Ready-Bilt™ models ship factory pre-assembled and, for a custom solution, there's the Bilt2Spec™ line.

Carroll Coolers

Carroll Coolers

These pre-engineered walk-ins offer the convenience of quick, economical installation with heavy-duty construction. A variety of sizes are available to meet the indoor and outdoor needs. Available with or without refrigeration systems and insulated floor panels.

SPECIALTY EQUIPMENT

ICE MAID® | Specialty Equipment

Norlake Ice Crusher

The Ice Crusher crushes large cubes into crushed ice in only a few seconds. There are three settings, fine, medium and coarse, which can be selected on the front lever.

Standard Features:

- Polycarbonate tote pan
- Stainless steel exterior
- Stainless steel top and access door
- 1 year parts and labor warranty

Kool-Star Novelty Display Freezers

Designed for novelty frozen food display, these mobile merchandisers may be placed in high traffic areas for increased impulse purchases. Flat lid or curved tempered glass sliding lids are equipped with standard LED lighting, baskets, floor drains and locks.

REFRIGERATION

ICE MAID® | Refrigeration

Master-Bilt HOAM and VOAM Series Open Air Merchandisers

A total of 16 competitively-priced models in horizontal and vertical versions provides industry-leading value and flexibility to fit almost any sales space requirement. Place the grab and go convenience of HOAM or VOAM models in high traffic areas, such as end caps, for increased profits. Ideal for store entrances or next to foodservice areas to showcase beverages, pre-packaged sandwiches and salads, produce and other items for on-the-go customers. All models share common widths of 36", 48", 60" and 72" so they may be easily interchanged.

Standard Features

- LED lighting in canopy
- Electronic controllers ensure dependable temperature performance
- Designed for low decibel ratings for a quiet retail experience
- Heavy duty shelving for a wide range of product to be merchandised
- LED canopy lighting provides optimum illumination and helps reduce energy usage
- Non-corrosive stainless steel floor pans protect evaporator coils from spillage
- Built-in bumper protects from shopping cart damage
- Meets 2017 Dept. of Energy standards
- 3 year parts and labor warranty with an extended 2 year warranty on the compressor
